

ENVIRONMENT POLICY

We are focused and committed towards contributing to quality environment by providing strong support on the “Go Green” initiative to reduce environmental impacts resulting from our business activities. We demonstrate our commitment to comply with Environmental Quality Act 1974 and other relevant legal requirements. Everyone is responsible to minimise pollution, reduce resource use and waste, through the adoption of Company’s principle **“DO IT RIGHT AT THE FIRST TIME AND EVERYTIME”**.

The Company established a strong framework to accomplish this by:

- a) Providing adequate resources and training
- b) Identifying risks of any activities that have potential to cause impacts to the environment along with mitigation measures
- c) Implementation of Environmental Management Plan and other relevant environmental initiatives for continuous improvements
- d) Promoting “Go Green” initiative and environmental awareness among employees and workers
